

The Honorable Nancy Pelosi  
Minority Leader  
U.S. House of Representatives  
Washington, DC 20515

Dear Leader Pelosi:

Thank you for inviting EPA and others to a briefing on July 31, 2018, concerning the status of ongoing cleanup and conveyance activities at the Hunters Point Naval Shipyard Superfund Site. EPA shares the concerns you raised in your briefing and is committed to ensuring the cleanup is complete and the community is involved throughout this process. Thank you for your leadership on this critical issue for the San Francisco Bay area.

I believe you share my belief that by providing the maximum amount of transparency and efficiency, we will not only ensure protection of the residents' health and safety, but also restore public confidence. As part of that process, I have attached our recent letter to the Bayview Hunters Point Citizens Advisory Committee and our official comment letter on the Navy's June Draft of the *Parcel G Removal Site Evaluation Work Plan*.

EPA remains committed to keeping your office informed about developments at the Hunters Point Naval Shipyard Superfund Site. I am aware that our Superfund Division Director, Enrique Manzanilla, and his staff have provided regular updates to your Chief of Staff, Robert Edmonson, and we will continue to be available to address any questions from your office and I support your effort to reconvene the agencies this fall and look forward to our next meeting. If EPA can give further assistance, please contact me, or your staff may contact Region 9's Congressional Liaison, Brent Maier, at (415) 947-4256 or via e-mail at [ [HYPERLINK "mailto:maier.brent@epa.gov"](mailto:maier.brent@epa.gov) ].

Sincerely,

Michael Stoker
